Expectations from Education

[List your Expectations from Education?]

Expectations from Education

Education has the responsibility to facilitate:

Understanding: 'what to do' – What is valuable, as a human being

Learning: 'how to do' – skills, technology

1.3. Are both required or we can do with just one of them?

Both are important

1.4. What would be the priority between these two?

The Priority is

1. **Understanding** 'what to do'
2. **Learning** 'how to do'

“what to do”- ???

“how to do” = Skill Development

Deciding “What to Do” or “What is Valuable” – Example

Without clarity on the first question, without understanding what to do, even if we are going about doing things in an efficient and effective manner... we are not sure where we want to reach, what is our goal

Our program becomes a jumble of choices like

- Complete school
- Get admission to a good college
- Get a degree
- Get a job
- and so on...

So while we progress in skills, it is difficult to find out if we are making progress or not

As a human being, it is important to understand what to do (what is valuable for human being), and then, how to do

To understand “what to do”, we need Value Education

Second, in order to ensure this we need to get into the details of things, for which we need a holistic perspective

To develop a holistic perspective, we need Value Education

So, that is the need of Value Education

1. Correct Identification of Our Goals
2. Development of Holistic Perspective
3. Clarity of Programme to Live with Holistic Perspective
4. Evaluation of Our Beliefs
5. Solution of Existing Problems
6. Development of Ethical Competence

Guidelines for Value Education

- **Universal**

Whatever is studied as value education needs to be universally applicable to all human beings and be true at all times and all places. **It should not depend on sect, creed, nationality, race, gender, etc.**

- **Rational**

It has to be amenable to logical reasoning.

It should not be based on blind beliefs.

- **Verifiable**

The student should be able to verify the values by checking with one's own experience, **and is not asked to believe just because it is stated in the course.**

- **Leading to Harmony**

Values have to enable us to live in peace and harmony within our own self as well as with others (human being and rest of nature).

- **Holistic- All Encompassing-** Individual, Family, Society, Nature/Existence.
understanding, thought, behaviour, Work

Covers all 4 levels of our living:

1. Individual
2. Family
3. Society
4. Nature/Existence

Covers all 4 dimensions as an Individual:

1. Thought
2. Behaviour
3. Work
4. Understanding/Realization

Process of Value Education – Self Exploration

Whatever is said is a **Proposal** (**Do not assume it to be true**)

Verify it on Your Own Right – on the basis of your **Natural Acceptance**

It is a process of **Dialogue**

A dialogue between me and you, to start with

It soon becomes a dialogue **within your own self**

प्रस्ताव है (मानें नहीं)

जाँचें – स्वयं के आधार पर।

अपनी सहज स्वीकृति के आधार पर।

यह संवाद की प्रक्रिया है।

यह संवाद आपके और मेरे बीच शुरू होता है, फिर आप में चलने लगता है।

Process of Value Education – Self-verification

Whatever is said is a **Proposal** (**Do not accept it to be true**)

Verify it on your own right

1.5. Which process is Naturally Acceptable to you?

A process of self-exploration on your own right, leading to understanding in your self

or

A process of discourse, do's & don'ts, in which you assume what is said

Sum Up

Need – To have the clarity about

1. "what to do" / Human goal, Human purpose, we need to know what is valuable for Human Being
2. "how to do" / Program for fulfillment of human purpose
